Weddings

McGIVERN-MAYERCHAK

St. Anthony's church was the scene of a lovely wedding on Saturday, February 20, at 9:30 a.m., when Irene Marie, only daughter of Mr. and Mrs. S. Klejko, Didsbury, became the bride of Hugh McGivern Calgary, eldest son of Mrs. E. McGivern, County Down Ireland. Rev. D. A. McLeellan, P.P., performed the ceremony.

The bride looked lovely in a white organ gown and matching veil held at the top by a white crown. She carried a bouquet of rose-pink carnations. Her only ornament was a cross, gift of the groom.

The bridesmaid, Miss Wynne Moon, was attired in a lovely blue gown with matching chapel veil and carried a bouquet of pale pink carnations.

John Mayerchak, brother of the bride, acted as groomsmen. Melvin Tyler, Innisfail, and Joe Mayerchak, also brother of the bride, acted as ushers.

During the signing of the register, the bride's father sang, "Ave Maria." After the ceremony, a reception was held at the home of the bride's parents.

Catering to the reception was Miss Z. Cressman and Mrs. Wrigglesworth.

Out of town guests were Mr. and Mrs. Tyler, Innisfail; Messrs. LAC H. Caven and LAC J. Wilson, and Mr. and Mrs. Wudward, all of Calgary.

For travelling the bride chose a green and gold suit with black accessories.

After a short honeymoon, the happy couple will reside in Calgary, where the groom is stationed.

GREGORY-SNYDER

On Saturday, February 20, at 1:00 p.m., at the M.B.C. parlour a quiet wedding ceremony took place in which Mildred Irene, daughter of Mr. W. H. Snyder, of Didsbury, became the bride of Henry John Gregory, son of Mr. and Mrs. H. G. Gregory, of Victoria, B.C. Rev. E. G. Archer, assisted by Rev. Oscar Snyder, officiated.

The bride was attractive in a dress of dawn blue chiffon velvet with navy accessories. Her attendants were her sisters, the Misses Anna and Ethel Snyder. Mr. Loyal Snyder was best man.

A reception followed at the home of the bride at which fifty guests were assembled.

Following a weekend in Calgary, Mr. and Mrs. Gregory left on Monday morning for Victoria where they intend to reside.

Westerdale M.D. Annual Meeting

There was only a fair attendance at the annual meeting of the Westerdale Municipality, which was held Saturday, but considerable interest was displayed in the affair of the district.

Before the business meeting, Reeve George Clark asked the privilege of the floor to express, on behalf of the council and ratepayers as a whole, the loss sustained in the passing of Mr. Norman Clarke, who was a loyal friend and a valuable public servant. He remarked that Mr. Clarke had served the local Old Improvement District and that excepting for two years, had been a member of the Westerdale Municipal council since its formation until his death. He also took an active part Provincial municipal affairs and was vice-president of the Alberta Municipal Association.

Mr. Clark said that he will never be forgotten for his great devotion to duty. He also quoted Mr. Farnell, president of the Alberta Municipal Association, "The world was better for his having passed this way."

The meeting observed two minute silence in memory of Mr. Clarke.

Mr. A. Buckley was appointed chairman of the meeting.

The financial statement was read and discussed. It was brought out that there had been lack of co-operation on the part of the farmers in the collection of poll tax, and methods of enforcing collection was discussed.

Mr. W. Davies expressed satisfaction with the remuneration the council had set for their services and car mileage, stating that with gas and tires shortage and the shortage of help during the war, they were doing an excellent job.

There was some criticism on the state of the roads during the winter and it was felt that more effort should be made in clearing the snow. It was recommended that the Council try and purchase the necessary machinery to keep the roads open.

Mr. Davies gave a report on the work of the Olds School Division and remarked that in view of higher costs it would be necessary to increase the requisitions from all the municipalities to the amount of \$150,000. He said that last year the replacement of teachers was 45% compared with 15% in ordinary years.

It was reported that Mr. A. McNaughton, who has been secretary of the municipality since its formation, had resigned.

Mr. Frank Ingham moved that a vote of thanks and appreciation be tendered Mr. McNaughton for the long years of service he had rendered the municipality. The motion was seconded by Mr. W. Summers and carried unanimously.

Nominations for councillors were called for and in Division 5, Reeve Geo. Clark was elected by acclamation. In Division 6, Charles Brown was the only person nominated and was declared elected.

For the Olds Municipal Hospital Board, Reeve Geo. Clark and Councillor Niddrie were the only parties nominated.

Another Didsbury Boy Receives Commission

Another Didsbury boy became an officer of the Royal Canadian Air Force when Lloyd Ringheim received his wings at a service flying school near Toronto and received his commission as Pilot Officer.

He was home on leave last week and left on Friday for Vulcan where he will take an instructors course at the officers training school at that point.

L. Cpl. Don Shannon, Pte. Don Lamont, Lloyd Reid and Gerald Boettger, who are stationed at the Camrose Training Camp, were home over the weekend.

Red Cross Drive Starts Monday

The Red Cross Drive will start on Monday next, March 1st, and will continue during the month. This time the people of Canada are being asked to contribute \$10,000,000.

The local committee have set up their organization and canvassers are being appointed and the district laid out so that everyone can be contacted.

This year Didsbury and district are being asked to contribute \$3,000.00 and as this amount was exceeded in the last drive there should be no difficulty in obtaining this objective.

To reach this quota the average contribution should exceed \$5.00 (in the last drive 528 subscribers attained an average of \$6.52) and this should be the goal for the canvassers to work to.

When the canvassers call you are asked to receive them courteously and to remember they're not asking anything for themselves but are giving their services gratis to raise funds to provide food for prisoners of war, to supply hospital supplies and aid for wounded soldiers, clothing and comforts for shipwrecked sailors, and relief for refugees and bombed out people of Britain. Wherever the United Nations have a fighting front the Red Cross is right there with them.

This is the only appeal where you are asked to give your money to aid our fighting forces. Our war services are provided with funds by the government but the Red Cross, being international can only be supported by voluntary subscription, as according to the Geneva convention no assistance may be given by a belligerent government.

Celebrate Golden Wedding Anniversary

Mr. and Mrs. E. Mekkelborg, residents of the district for thirty six years, were pleasantly surprised on Saturday, February 20, when their children and their families arrived to help them celebrate their golden wedding anniversary.

After congratulations and best wishes had been extended to the honoured couple, the bride was presented with a beautiful bouquet of roses, and bride and groom with a bedspread complete. The company then sat down to a table covered with a wedding cake and laden with the dinner provided by the guests.

After the dinner, some time was spent reminiscing, each member contributing some humorous incident from earlier days and then the bride and groom sang several songs that were new when they were young.

Those present at the gathering were: Mr. and Mrs. C. Acton and son Francis; Mrs. J. Mekkelborg and son Donovan, of Calgary; Mr. and Mrs. L. Mekkelborg and baby Doreen; Bergen; and Mrs. A. Lees and son Bobby, Big Valley. Jack Mekkelborg and Arthur Lees were the only immediate relatives unable to be present.

Miss Florence Cullen, who graduated from the Calgary Normal School last week, left on Tuesday for Coronation, where she has taken a teaching position.

Mountain View M.D. Annual Meeting

Mr. H. L. Taggart was appointed chairman at the annual meeting of the Mountain View Municipality held at Olds on Saturday last.

The Financial Statement which was read showed a decided improvement in the financial position of the municipality. All municipal and school loans had been retired and there was a municipal surplus of \$406.15 and a school surplus of \$2096.10. It was brought out, however, that the amount of arrears of taxes were too large and that if their arrears were collected, it may be possible to reduce the mill rate.

There was considerable discussion on maintaining roads but no definite recommendations were made, it being the general opinion that it was a matter for the council to cope with.

The question of enlarged unit came in for much comment and the secretary remarked that there was every likelihood that the larger unit would be established. Opinions expressed were decidedly against such a change and a motion was passed that in view of such possibility all the surplus in municipal funds should be expended on roads.

Mr. Trimble made a report on the Olds Municipal Hospital and said it was hoped to proceed with the new hospital this year.

Nominations for councillors were received and for Division 1, W. F. Metz was the only person nominated, and he was declared elected by acclamation.

In Division 2, W. A. Archer, the retiring councillor and W. T. Richards were nominated and the election will take place on Saturday, February 27, at the Mountain View Community Hall.

For the Hospital Board only two were nominated and Councillors B. Trimble and J. Dodd were declared elected.

Council Meeting

After the annual meeting a meeting of the Council was held when the requisitions of the Olds School Division was dealt with.

The total requisition required by the School Division was \$30,000.00 for 1943, this being an increase of \$3818.14 over last year. Included in the requisition is an amount equivalent to 1-2 mill on the assessment, which will be earmarked for building purposes.

The total requisition required by the Olds School Division from the Municipalities and Local Improvement District amounted to \$130,250.98.

The rate for school purposes was set at 11 1/2 mills, an increase of one mill over last year.

The secretary was instructed to apply for a grant of \$6,000.00 from

NOTICE OF POLL.

Election by Electoral Divisions.

M.D. of Mountain View No. 310

Public Notice is hereby given that an Election will be held for a Councillor for Electoral Division No. 2 of the Municipal District of Mountain View No. 310, for the years 1943, 1944 and 1945, and the polling will take place on Saturday, 27th day of February, 1943, from nine o'clock in the forenoon to five o'clock in the afternoon.

The Electoral Division has been divided into the following polling divisions:

Polling Division No. 2, consisting of All of Tp. 31, Rge. 28 and 29, and South 1/2 of Tp. 32, Ranges 28 and 29, West of the 4th Mer.

The Polling Place for Division No. 2 is at the Community Hall.

I will at the Municipal Office on Monday the 1st day of March, 1943, at 12 o'clock noon sum up the votes and declare the results of the election.

Given under my hand at Didsbury, this 23rd day of February, 1943.

H. L. TAGGART,
Returning Officer.

Mr. and Mrs. J. R. Cunningham, Mrs. Gray and Pte. and Mrs. Kelvin Shannon and infant daughter, all of Calgary, spent the weekend at the home of Miss Zillah Cressman.

Canadians Should Be Proud To Claim Ownership In A Great System Of National Parks

(By Robert J. C. Stead)

MOST people appear to be agreed upon one point in connection with the outcome of this war, that victory and peace will usher in a new era of greater opportunities for employment, leisure, recreation, and travel. The desire to travel, which is at present being dammed up by circumstances, promises to be an important factor in Canada's post-war economy.

The average Canadian is proud to claim ownership of a great system of national playgrounds, the national parks. The primary purpose of their establishment was the protection of forests, wildlife, scenery, and natural phenomena from exploitation and possible destruction. Their later development as recreational areas has been on the whole, been incidental to this main purpose. Due, however, to their popularity as holiday centres for Canadians and as an attraction to tourists from other lands, a new conception of their value has arisen with the result that the national parks now figure prominently in our national economy.

It was never intended, of course, that the national parks should have any monopoly on supplying the recreational needs of the Canadian people. Indeed it would not be altogether desirable to have some of them, which are primarily wildlife sanctuaries, overrun by throngs of weekend sightseers. The majority of Canadians want recreational areas within easy reach, where they may enjoy the beauty and freshness of the countryside—lake, stream, and forest, without having to spend too much time and money in getting there. They want facilities for picnicking, camping, boating, swimming, horseback riding, fishing, climbing, fishing, tennis, golf, and games galore for the children. Few are without appreciation of the beauty and harmony which Mother Nature provides in those places where there is a minimum of disturbance to that delicate balance which she maintains. Most of us want to get back to nature, if only for a few short days or weeks once in a while. Most of us enjoy exploring wilderness trails, tracking wild life in its native haunts, listening to the song of birds deep in the forest, or off the call of the loon from the marshy edges of some hidden lake. We want to fish, to ride, to hike, to play and rest, and where the murmuring stream hails us to sleep.

So the parks, whether national, provincial, city, or town, and the thousands of vacation places outside of any park at all with which Canada is so richly endowed, promise to play a larger part in the post-war world than they have at any time in the past. In the meantime they will continue to contribute their share to the health and morale of the Canadian people until the war is won.

Everything In Writing

Prime Minister Churchill Keeps Record of All Important Talks

After Mr. Churchill's last visit to the White House, someone with knowledge of what took place remarked on the excellence of the Prime Minister's secretariat, reports Raymond Gram Swing. Mr. Churchill, though one of the ablest speakers living, does not rely on the spoken word. An important conversation is not left to live only in the auditory memory. With almost unobtrusive speed it is compressed into written language, and the draft then becomes the basis of any future conversation or action the topic engenders. The secretariat at the White House is not used to this pitch or method. President Roosevelt, in all his affairs, relies more on brief memoranda than secretarial recordings. If both Mr. Churchill and Mr. Roosevelt should live to write the history of the war, Mr. Churchill will have much richer data to draw on. Though Mr. Roosevelt no doubt sometimes sees himself in historical perspective, he does not, like Mr. Churchill, see himself as historian too, and so does not make history and compile historical material at the same time.

Income taxes are now paid by 10,500,000 people in Britain, compared with 3,600,000 in 1930. 2262

Farm Equipment

Life Often Shortened More By Neglect Than From Usage

"Equipment conservation in its simplest term means care which means giving farm equipment the attention that any good investment should have," states the latest issue of the C.S.T.A. Review, which is published quarterly by the Canadian Society of Technical Agriculturists. "Now that farm equipment must serve longer than ever before conservation is more important, for the farmer's responsibility of producing food for our war effort and that of the United Nations still remains."

"Protection from weather is also important. Some farmers have the habit of leaving costly farm equipment lying around, subject to all the vagaries of the weather—summer and winter. It would be safe to say," states the Review, "that the life of more farm equipment has been shortened by neglect than through wear-out by hard work. Fortunately, protection from weather is comparatively simple. Most farmers have room for storage of equipment under cover, the point is to get it there. No one can do that but the one responsible for it."

MAN OF MIRACLES

When Henry J. Kaiser arrived in Washington he was late for an appointment with the newspapermen. "What happened?" the reporters asked the man who had broken all shipbuilding speed records.

"I had to wait for a taxi," explained Kaiser. "I had to wait 30 minutes for a taxi!"

"Thirty minutes?" a lone newspaperman suggested. "Why didn't you build one?"—Christian Science Monitor.

Colorful Linens In Simple Stitchery

by Alice Brooks

Have the thrill of owning linens so lovely you'll want everyone to see them. You can if you'll embrace these colorful ribboned sprays on your bed sets, towels, tea cloths, scarves, bed sets and other small linens. Pattern 7396 contains a transfer pattern of 10 motifs ranging from 8 x 11" to 1 1/2 x 2 inches; materials needed; stitches.

To obtain this pattern send twenty cents in coin (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermott Avenue E., Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number.

HARDLY INEFFICIENT

The London News-Chronicle says the nicest indictment of mediocrity inefficiency we've seen for some time is that of a transport authority who points out that the 19 stone pier of Old London Bridge were "constructed without engineering experience adequate for the enterprise" so the bridge functioned only 600 years.

Buy War Savings Certificates

Register Is Now Kept Of All Canadian Sailors Who Are Engaged In Sea-Faring

As a maritime nation, Canada has had ships plying the seas for many years, all appropriately registered, but it remained for the war to bring to this country one of the services operated by most maritime nations, a registration of the men who go to sea. The "central index register of seamen" set up in the transport department now has more than 28,000 names of sea-going men together with particulars of their lives and services, many of them in the grim business of running valuable war cargoes through submarine-infested waters.

The registry makes one continuous official story of the sea-going career of a sailor, where it was formerly a series of officially unconnected events, his voyages on different ships.

An old sea-dog who was torpedoed five times in the first great war, and who had long experience as a purser on sea-going ships, J. H. Longfellow, set up the registry and still operates it. Here is the way the registry operates:

Every seaman must have an identity certificate before he can be signed on a Canadian ship. That certificate is his passport in the ports he may visit and when it is issued to him a card is opened for him in the central index.

Thereafter, as he is signed on and off ships, injured, torpedoed, his affairs are reported to Ottawa and entered on the card.

To the seaman the index which operates from a small office, jammed with filing cabinets and piles of articles of agreement from which information must be transferred to indexed cards, is as important as the records branches of the army, navy and air force are to the men in those services.

If he comes up for an examination which requires a certain period of service he can prove his service from the record. If he serves in the war zone for three months or is war-torpedoed or bombed, the record establishes his right to the coveted "Canadian Merchant Navy Badge."

If he suffers injury as a result of enemy attack his right to pension on the same scale as is payable to members of the armed forces springs from the record on the cards. If he is lost, the record establishes the right of his widow or other dependents to pension. From the registry

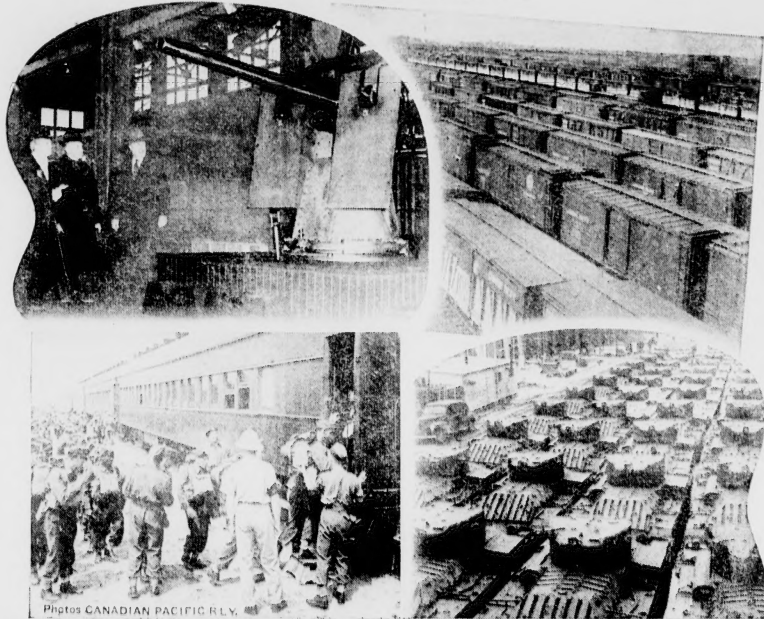

are sent the Memorial Crosses which go to widows and mothers of men who lose their lives at sea as a result of the enemy's operations. The cross is given as is sent to widows and mothers of men killed in the armed forces.

The Beaver market represents food stores across Canada. On its shelves are Canada's health-building foods and patriotic food retailers are learning Canada's Official Food Rules so that they can help their customers. The Beaver market features these foods that help keep Canada strong. It also helps shoppers buy wisely and gives helpful hints on food preparation.

A wonderful animal is the cow—giving us milk, cheese, butter, ice cream, cream, meat, shoes and Gladstone bags—though not at once and the same time.

C.P.R. Shoulders War Burdens

A total of 13,597 Canadian Pacific Railway employees are on active service; another 157 are on loan to the government for war work; 1,376 are in the service as members of the reserve army, and Canadian Pacific ships ply the seven seas with troops and vital materials of war. Freight trains handle unprecedented volumes of war goods; passenger trains are filled mainly with men of the armed services, and Canadian Pacific ships have turned from locomotives to the making of guns and tanks. Such is a "thumb-nail" picture of the railway's war work as presented in the attractively-illustrated booklet, "The Canadian Pacific at War," now being distributed throughout the Dominion. Above are some typical scenes: Upper left, D. C. Coleman, President, and W. M. Neal, Vice President of the Canadian Pacific, inspecting a new gun fashioned in their Ogden shop; Calgary, upper right, a crowded freight yard indicative of stepped-up wartime traffic; lower left, troops entraining; a picture now common in all parts of the country, and, lower right, some "Valentines for Hitler"—trainloads of Valentine tanks built in Angus shops.

The World of Wheat

by H. C. L. Strange

HOME-MADE GERMINATORS

Here are simple ways of making germinators for testing the germination of wheat, oats, barley and other grains.

Cut two sheets of thick white blotting paper to the size of a dinner plate. Lay one sheet on a plate and wet it thoroughly (drain off excess moisture). On this blotting paper place 100 kernels of grain, cover with the second sheet of blotting paper and moisten the top paper. Place the second plate on top, inserting a match between the edges of the two plates for ventilation. Keep in a warm place and moisten the blotting papers several times a day.

Or, take a four pot 4 or 5 inches in diameter, with a hole in the bottom for drainage, and fill it with loamy soil. Plant 100 kernels about an inch deep and moisten the soil daily. A shallow wooden box, with several holes bored in the bottom, say 1/2 inch, and about 4 inches deep, filled with loamy soil, can be substituted for the flower pot. If 100 seeds are planted the number that emerge in about twelve days indicates the percentage of germination of the grain.

These germinators must not overheat by day, nor freeze at night. Normal room temperature is about 65°.

LEAVEN IN BREAD IN THE HOUR OF NEED

The U.S.A. production of soybeans was increased from 107 million bushels in 1941 to 210 million bushels in 1942, an increase of about 96%. Unofficial sources estimate the Canadian surplus (excess carry-over) for 1943 requirements will be at least three million bushels. The U.S. State Department reports that since control over export of mill feeds from Canada. During 1942, 36% was exported, but less than 10% was permitted to leave during 1942. About three million bushels of Canadian wheat has begun moving through Texas to Mexico. Heavy slaughtering has robbed Europe of breeding cattle and the demand for well-bred cattle will be very great when peace is restored. The U.S.A. Commodity Credit Corporation announces that the sale of government-owned wheat for livestock feed will be restricted.

Melvin Notes

The wheat drive held at the Melvin school on Monday evening by the local Red Cross group, was very successful. A sum of \$9.50 was taken, and prizes of war savings stamps were won by Mrs. Leeson and Emil Krebs.

A turkey donated by Mrs. A. McNaughton and a rooster donated by Miss Ruth Johnson, were given away that evening, the turkey going to Mrs. P. Daniels and the rooster to Mr. Frank Jackson. Proceeds from this amounted to \$40.75 and this will be used to send boxes to the boys overseas.

We would like to take this opportunity of thanking those who so generously supported our effort.

On February 11 the Melvin Red Cross group met at the home of Mrs. Roy McNaughton where a quilt was made. The next meeting will be at Mrs. H. Fischer's.

Lone Pine Notes

The annual meeting of the Lone Pine Hall will be held on Wednesday, March 3, at 8:30 p.m. at the Hall.

Mrs. O. Paas and daughter Betty were spending a week in Calgary visiting relatives and friends.

Mrs. Emily Hunter is visiting with her son and friends in Calgary.

We are glad to hear that Donald Fuikert, who recently broke his leg is progressing favorably.

We see that Mrs. Huggard, who was a Sunday visitor at the home of Mr. and Mrs. P. Shumaker, was trying out a new economy transportation system.

Mrs. Harvey Strone of Sundre, spent a day here visiting with Mrs. O. Paas.

Mr. and Mrs. Gus Bittner were Sunday dinner guests at Mr. and Mrs. O. Bittner's home.

Harvey and Wilfred Strone were business visitors at Algonia last Monday.

The February meeting of the Lone Pine Hall W.I. was held at the home of the President, Mrs. E. Ahgrim, with seven members and three visitors present. A very good paper on handiwork was given by Mrs. E. Ahgrim. Letters were read from boys overseas thanking the W.I. for cigarettes they received. Mrs. W. Fuikert won the War Savings Certificate and Mrs. W. McCulloch won the 10c draw. There was also a quiz contest which was won by Mrs. O. Bittner. The march meeting will be held at the home of Mrs. Ellen Richardson.

Notes From The West

The Willing Workers held a very successful wheat drive at the home of Mr. and Mrs. J. Bagshaw, Wednesday evening of last week, honors going to Mrs. M. Campbell and Mr. C. Byrt, and congratulations to Mr. and Mrs. F. Byrt. The next meeting will be held at the home of Mr. and Mrs. C. Byrt on Wednesday, March 3rd.

Mrs. V. Olsen spent the weekend in Calgary with Mr. Olsen, who is there awaiting an operation.

Miss Ruby Olsen, who is stationed at Ottawa with the I. A. W., arrived home Monday on leave.

First Women Blood Donors at C.P.R. Clinic

MARKING the first time women had given blood for the Canadian Red Cross Society in an industrial clinic in Quebec, the office workers in the Angus Shops of the Canadian Pacific Railway in Montreal joined 100 men who had gone before them to blood donors in the clinic which has been in operation at the Angus shops since July of 1942. This was a part of a group of 25 who have volunteered for blood donations from the first clinic since the outbreak of the war. The clinic, which has given blood at the Angus shops since the time of the clinic, first to be operated by a railway in all of Canada, has resulted in 1,174 donations to greatly the blood bank shipped overseas for civilian and military transfusions. As before and proved in Angus shops, the clinic is a part of those who have made these donations, with 100 more in that clinic now, while one, Mabel M. Mott, a schedule man, has given blood six times.

In charge of the clinic is Dr. J. U. Page, chief medical officer at Angus shops' medical centre. Upper left shows the first donors receiving advice in the recovery room after giving blood, with the picture on the upper right showing the operation. Lower left shows the "donor" group with Dr. Page, nurse, manager, Angus shops, and Dr. Page. At the lower right Mr. Myatt receives his silver badge from Mr. Taylor for six donations totalling four and one half pints.

Your RED CROSS CALLS TO YOU
Never has the need been so urgent
\$10,000,000 NEEDED Now!

YOUR RED CROSS appeals to you for funds to carry on its program of mercy; to continue vital work performed by no other organization. Never has the need been so urgent.

Helping to keep up the morale of half-a-million fighting men is a gigantic task, and that is only the beginning. The Red Cross makes life more bearable for thousands of prisoners of war. Over 2,000,000 parcels were shipped to them last year—more than this number must go in 1943. Our men in British and Canadian hospitals need Red Cross comforts and heartening visits from the staff of Red Cross "visitors".

Red Cross help to shipwrecked sailors is essential, thoughtful, immediate. Homeless war orphans—our own kin and those of our allies—sick and starving men and women in many lands—millions in Russia, Greece and China and other peoples of the United Nations—need more food, medicine and comforts from the Red Cross.

The need is world-wide; this year the cost will be greater than ever. The work must go on. Obey the dictates of your heart; open wide your purse and be generous. Remember, you are the Red Cross!

Those Who Go 'Down To
The Sea, Looked After
By The Red Cross

The Canadian Red Cross, symbol of mercy the world over, has again taken to the high seas, this time with a new system whereby survivors of Axis-destroyed vessels can be completely clothed immediately after they are picked up at sea. Previously, shipwrecked sailors were outfitted by the Red Cross after they had been brought into port, but it was felt that looking after survivors' comfort until the rescue vessel docked was too great a strain on the already over-worked wardrobes of the ship's crew.

Through this new system, only recently put into operation, survivors of damage boats containing warm clothing, underwear, toilet supplies, etc., are issued by the Canadian Red Cross to all Navy and merchant navy vessels leaving Canadian ports.

Since the outbreak of war, hundreds of shipwreck survivors have passed through Red Cross depots where they have exchanged their torn, out and oil-stained garments for warm outer clothing, underwear, socks, sweaters and mitts knitted by women volunteers all over Canada. Red Cross distributing centres have been set up in Newfoundland, Nova Scotia, New Brunswick, in Quebec along the shores of the lower St. Lawrence and in British Columbia.

This new system does not mean, however, that the work of these centres will cease. Not everything a survivor needs can be put into a seagoing damage bag. One old dockhand asked if the Red Cross could supply him with a new pair of glasses so that he could read the news, as his own were resting on the bottom of the Atlantic.

His buddy, next in line, then spoke up: 'Ow about me, I lost me specs and me teeth too. Last I saw of me "choppers" they was grinnin' at me from a bucket of water on deck and I had no time to do fishin' for them.'

The spirit and cheerfulness of these men who have been through such frightful experiences is amazing. Some of them have been torpedoed as many as seven times and yet are always impatient to get on another ship. Their tales are both tragic and amusing and their requests few. In fact, they are usually most hesitant about accepting anything but the bare necessities.

SEEDTIME HARVEST
By Dr. K. W. Neathy
Director, Agricultural Department
North-West Live Elevators Association
NEW LEAF-RUST RESISTANT
WHEATS

Owing to publicity from the University of Minnesota regarding a new strain of wheat that is resistant to leaf rust, there has been a great demand for further information. Actually, there are several strains, the best of which has yet to be selected. They have been developed by successive 'back-crosses' of Thatcher & Hope hybrids to Thatcher. The aim was to transfer the leaf rust of Hope to Thatcher, and we have every reason to believe that the efforts of the Minnesota plant breeders have met with a large measure of success. They are about to begin increasing one of the new backcrossed strains.

The strain which will probably be increased has not been tested in Canada, but two others of the group were in variety tests in W. W. Canada in 1942. They gave higher yields than Thatcher in districts where leaf rust was abundant, but in the absence of this disease they yielded somewhat less than Thatcher. Under leaf rust conditions, they yielded no better than did Regent.

Seed of the new Minnesota strains will not be available for at least one and probably two years. In areas subject to leaf rust disease, farmers should grow Regent, or Regent, or make sure they use seed derived from registered strains. Both Regent and Thatcher have been greatly improved by selection since first distributed. Every farmer growing these varieties would do well to get a start with registered stock. Contributed by Dr. C. H. Goulden, Senior Agricultural Scientist, Dominion Rust Research Laboratory.

Complete Utilization of Canada's Manpower
and Womanpower is Essential to Victory

National Selective Service Civilian Regulations aim at complete utilization of manpower and womanpower. Workers and employers are urged to assist the war effort by carrying them out. All civilian regulations have been consolidated and revised, main features now being as follows:—

EMPLOYERS

Employers: Regulations cover persons of other sex from 16 to 64 years old, except—provincial employees; armed services; and those in fishing, fish processing, hunting, trapping, logging, nursing, teaching, domestic service, agriculture, students working after school, employees in respect of part-time employment, and any one employed for 3 days or less in a calendar week. Agricultural workers are covered by special provisions, not by the general provisions as also are "technical personnel."

Employers: Any person, firm or other employers, with one or more "covered" employees.

EMPLOYERS MUST—

- (a) Refrain from dismissing employment with prospective employee unless under penalty;
- (b) notify the nearest employment office of additional employees needed;
- (c) secure permission from an employment office to advertise for workers;
- (d) notify the employment office of intention to discharge or lay off employees, or to retain employees when not required;
- (e) give employees 7 days' notice unless a Selective Service Officer permits a reduction, or unless in the building construction industry; 15 days' notice is not required unless an employee has already been employed for one month, or after the expiration of other calamity, or on termination of work by weather. Whether preceded by 7 days' notice or not, separation from employment requires written notice.

EMPLOYEES MUST—

- (a) Register for work at the nearest employment office if out of work 7 days (full-time students, housewives and clerks are not in client);
- (b) secure permit from a Selective Service Officer if going to look for work;
- (c) refrain from advertising for a job unless Selective Service Officer approves;
- (d) give 7 days' notice if wishing to quit a job, unless authorized by Selective Service Officer to give less notice.

(separation from, but not 7 days' notice required if in building construction or joining the forces)

AGRICULTURAL WORKERS

are covered by special provisions. Persons regarded as "workers in agriculture" may accept employment outside that industry to a maximum of 60 days within a calendar year without permit, but only outside urban municipalities of over 5,000 population; otherwise, agricultural workers must secure a Selective Service Permit.

TECHNICAL PERSONNEL

may only accept employment under special permit.

LABOUR EXIT PERMITS

are required to work outside Canada.

PENALTIES AND APPEALS

Penalties are provided for non-compliance with Regulations or orders issued thereunder. Appeals against decisions may be made to a Court of Review.

NATIONAL SELECTIVE SERVICE

OFFICERS ARE AUTHORIZED TO—

- (a) Give persons unemployed for 7 days, or on part-time for 14 days, direction to accept work;
- (b) exercise discretion in issuing permits to seek work;
- (c) authorize employed persons to transfer to more essential work, and subsequently to be re-instated in original employment;
- (d) reduce the 7 days' notice period consistent with Regulations.

THE MINISTER OF LABOUR

IS AUTHORIZED TO—

- (a) require a person in an age class subject to military call-up to accept employment;
- (b) require employers to release male persons failing to furnish evidence of not contravening military call-up;
- (c) authorize payment of transportation and special allowances in some cases;
- (d) authorize anyone to leave employment to take more essential work.

The foregoing is not an exact or complete reproduction of National Selective Service Civilian Regulations. For information or rulings apply to nearest Employment and Selective Service Office.

WORLD HAPPENINGS
BRIEFLY TOLD

Farmers of Britain were warned they can expect no help from admirers in harvesting their crops next summer.

George Welsh, 95, last survivor of the Stanley expedition to Africa which found the long-missing explorer Dr. David Livingstone, is dead.

The Soviet government has ordered food and building materials sent to inhabitants of districts in the Tadjikistan republic stricken by an earthquake.

Alberta raised a sugar beet crop estimated at 331,000 tons last year, compared with less than 208,000 tons in 1941, about half of the seed coming from Oregon.

Taxes provided 91 per cent of Canada's total revenue in the fiscal year ending March 31, 1942, public accounts tabled in the commons by Finance Minister Itley showed.

A collection to establish a memorial in honor of the late Paddy Finucane, famous R.A.F. pilot who was lost several months ago in action, has been opened by the Mayor of Richmond.

Value on the market of Canada's fisheries production in 1941 was \$2,238,000, the highest of any year in the Dominion's history, says the annual report of the fisheries department for the year 1941-42.

The Maharajah of Bikaner, 62, immensely wealthy ruler of a large Indian state who died recently, had full ruling powers for 44 years, though he actually succeeded to his title when a boy of seven.

GAVE VALUABLE AID

Firemen at an East London station used their spare time to sort 2,000, 600 small metal parts to help out a munitions firm on a rush job and refused to accept payment. They completed the job in a week.

Recipe Of The Week

The Queen of Hearts is trumps on St. Valentine's Day. So is the hostess who serves Queen of Hearts cake on February 11, especially if it is this sweet as a nut layer, shaped like a heart, frosted in white and decorated with bright red candy hearts.

The recipe was designed to be kind to your ration card. Not nuts but crisp shreds of All Bran give the batter that sweet, nutty flavor. Strawberry jam not sugar is employed as the sweetening agent. A seven-minute frosting is nice on top if you have an extra cup of sugar handy, but if you haven't, a jam flavored egg white topping will bring just as much applause for the cook.

QUEEN OF HEARTS CAKE

- | | |
|--------------------------|---------------------------|
| 2 1/2 cup All-Bran | 2 egg, separated |
| 1 1/2 cup milk | 1 1/2 cups cake flour |
| 1/2 cup shortening | 1/2 teaspoon salt |
| 1 cup strawberry jam | 2 teaspoons baking powder |
| 1/2 cup almond flavoring | |

Soak All Bran in milk about five minutes. Blend shortening with 1/2 cup jam. Add egg whites, beat well; stir in soaked All-Bran. Sift flour, salt and baking powder; add to creamed mixture alternately with remaining jam. Fold in stiffly beaten egg whites. Pour into deep nine-inch layer cake pan; bake in moderate oven (350 degrees F.) 30 to 35 minutes.

Remove cake from pan. Cut large heart from stiff paper. Place heart on top of cake. Cut around heart. Frost cake with meringue made of 1 egg white, 1/4 teaspoon salt and 2 tablespoons strawberry jam. Decorate with red candy hearts.

Note: Save part of cake that has been cut away. Serve in dessert dishes with smooth custard sauce.

FOR MEATLESS MEALS

For the benefit of nutrition-conscious housewives, Southern California experts have suggested the following substitutes for beef on meatless days: Baked beans, corn muffins, green vegetables, cabbage salad with nuts, fruit and milk. These are guaranteed to provide the requisite protein, minerals and vitamins.

MICKIE SAYS—

WHEN GUTENBERG DID HIS PRINTING, HE WAS TH' BEST AROUND— BUT NOW, WITH US IN TH' FIELD, GUESS WHO'S THE BIG SHOT? IN PRINTING

Won A Cup

But Is Now Turning It In For Scrap Metal

Major J. E. Snow, U.S.A., is turning in for bullet metal scrap, a sharp-shooter's cup which he won in competition with a track Japanese team 15 years ago.

The cup that was being competed for was in reality the "Emperor's Cup" of solid silver. But when a foreigner won it, the Japanese discovered this would involve such a "loss of face" for the emperor that they begged Snow to accept a more modest cup.

Snow accepted but has now decided to send it back in a form that will do most good.

The hard route from Dakar to the Mediterranean is nearly 3,000 miles in length.

Food Production

Increases Of Practically All Farm Products Are Required

At the Dominion-Provincial Agricultural Conference held in Ottawa in the second week of December, objectives for farm production in 1943 were set. Increases of practically all farm products are required. In a recent radio broadcast, Dr. G. S. H. Barton, Deputy Minister, Dominion Department of Agriculture, said:

"The story behind the growing demand for increased production of foodstuffs in Canada during the war is this: The war began under conditions of food surpluses. Reserves of many commodities had been accumulated and in the early part of the war many sources of supply continued available with full production maintained. War demands in Canada were confined to limited quantities of a few commodities, chiefly wheat, bacon, cheese and fish.

As supplies disappeared, through consumption and loss, requirements for the armed forces greatly increased and war developments and shipping conditions limited the sources of supply. Before the United States entered the war Lend-Lease arrangements and the resources and reserves of that great country assured adequate supplies for most commodities. With the United States now in the war, with huge requirements for her own armed forces, with the depletion of farm manpower in that country, with shipping conditions compelling continuous dependence on North America as the main sources of food supply for the production of a greater demand for the production of food products for export is the result. Another telling factor in Canada is the increased earning and limited spending power of a large part of the civilian population."

ADOPTS SQUADRON

Sir Norman Birkett, judge of the English High Court, and his wife have adopted a Halifax squadron commanded by Wing Cmdr. Len Fraser, D.F.C., of Vancouver. Sir Norman presented 12 silver tankards to officers of the unit. Many squadron members spend their leaves at Sir Norman's home and he and his wife, in turn, have visited the bomber station.

Use of cosmetics was highly developed in Egypt as early as 1350 B.C.

Back-Buttoned Dress

By ANNE ADAMS

A really young housewife that's smart from every angle is Pattern 4317 by Anne Adams. In front there's a becoming square neckline, a curve to the inset waistband and heart-shaped pockets. And in back there's a full-length buttoning.

Pattern 4317 is available in misses' and women's sizes 14, 16, 18, 20, 32, 34, 36, 38, 40. Size 16 takes 3 1/2 yards 35-inch fabric and 2 1/2 yards ribbon.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

El Salvador, with an area of 13,000 square miles, is the smallest country on the American continents.

So abundant is water power on the island of Java that hydro-electric plants supply electric lighting to the most remote mountain villages.

Mrs. Jennings
proudly goes
to school!

MRS. JENNINGS had been just managing to keep her family going. But things were looking brighter at last. Now with the children able to help with the housework, she had applied for the post of school teacher . . . and had been accepted.

But that meant she needed suitable clothes and clothes cost money.

She took her problem to the manager of her bank. On the strength of her ability and character, he arranged a loan of \$80. And so it was that she was able to take the position and greet her first class proudly. She paid off the loan after six months at a cost in interest of only \$2.40.

This is a true story. Only the name has been altered. It is typical of hundreds of human dramas in which the bank manager has been privileged to play a helping role.

War's requirements have increased immensely the work of banks and bank staffs. At the same time more than one-third of our experienced men have enlisted. Bank early. Pay small bills by cash. It helps.

The CHARTERED BANKS of CANADA

LOCAL & GENERAL

Miss Bea Kendrick spent last weekend at Edmonton.

Miss Dora Fawcett was the guest soloist at the First Baptist Church in Calgary, on Sunday last.

Service at St. Cyprian's church next Sunday, February 28, Holy Communion at 11:00 a. m.

Mr. Oliver Stevens, who is now working at the Ammonia Plant in Calgary, was home over the weekend.

Elmer Wall left on Monday for Rocky Mountain House where he has accepted a position as printer with "The Mountaineer."

L.A.C. Harold Burns, who is training at the Elementary Training School at High River, was home on leave last weekend.

Miss Ruth Ardy, of the Royal Bank Staff, is spending her holidays at her home at Tees, Alberta, and Three Hills.

L.A.C. Ruby Jackson, who is with the R.C.A.F., Women's Division, at Ottawa, came home on a two week's leave on Tuesday.

K. Roy McLean, Optometrist and Optician, will be at the Rosebud Hotel on Monday morning, Mar. 1, Wednesday to Saturday consult at 1015 Southam Building, Calgary.

Kelvin Gordon Shannon, formerly a resident of Didsbury, enlisted in the Canadian Active Army last week at Edmonton. Previous to his enlistment he was employed as a mechanic.

Come out and see Alice Faye, John Payne, Carmen Miranda and Cesar Romero, in "Weekend in Havana", at the Didsbury Theatre this week Thursday, Friday and Saturday.

The W.C.T.U. is pleased to announce that Miss Edna F. Grant, Dominion Young People's Worker and Organizer, will speak in the Evangelical Church next Tuesday, March 2nd, at 8 p.m. Every one is cordially invited to attend this meeting.

Mr and Mrs. A. Schwesinger have received word from their son, Eric, of the 31st Alberta Recce. Reg't, has been promoted to the rank of Corporal. He has been transferred to Vancouver where he is taking a course in motor mechanics.

Verna Devolin, Wynne Moon and Dora Fawcett spent last weekend in Calgary. Sunday afternoon Mrs. Freda Fulkerth entertained several girls at a lovely dinner in honor of the twenty first birthdays of Miss Evelyn Reimer and Miss Dora Fawcett.

Four Didsbury trucks were taken to Edmonton on Monday during the past week to be engaged in freight hauling on the Alaskan Highway. The haul will be to Dawson Creek 500 miles north. Lou Boles and Ernie Wilkins each took one truck and Walter McCoy taking two trucks.

A letter has been received from Capt. Geo. Waters, of the R.C.M.P., who went into the north country last spring. He is now stationed at Westlock. He writes that during last season he accompanied an inspector on an inspection trip by boat and plane to many of the R.C.M.P. Posts in the north country.

Wheat Acreage Reduction Bonus

Reports have been issued showing the amounts paid out to farmers under the Wheat Acreage Reduction Bonus Scheme in the different municipalities.

The following amounts have been paid out under the scheme during the past season in the adjacent municipalities:

Mountain View No. 310	\$94,642.00
Westdale No. 311	61,808.00
Rosebud No. 280	96,872.00
Beaverdam No. 281	61,186.00

LOST — Plow Coupler, between Didsbury and four miles west of town. Reward Finder please notify Harold Oke (714) or Wallace Brower.

Didsbury Jottings

By A.C.H.

Called in at the ration book bureau on Saturday evening, and found six willing workers waiting most patiently for customers. Only a few stragglers appeared to be interested in getting their new ration books. Apparently town ladies, thinking the country people would come in in droves, had left the field clear for them. What alibi have our country friends, we wonder.

Of course, only sugar, butter, tea and coffee are at stake. In Calgary, where liquor is a rationed article, the crowd line up at early dawn, they tell me. So early, in fact, that were they early larks instead of early sparke, they would need the new magnetic detector to locate the early worm.

Miss Ruth Eckel entertained the U.F.A. on Thursday last. Sixteen members were present. Mr. George Church, chairman of the U.F.A. Co-op. Association, gave a very interesting report on the Debt situation. He had recently attended the meeting of the Debt Adjustment Board, called by Premier Aherhart in Edmonton, the previous Monday. Being the annual meeting, election of officers took place. A lovely lunch was served later.

Saw the Sun go Down at the Opera House Friday night. Several other shows went down, too, including George Sanders, and of course the villain. However, with a bright star like Gene Tierney around, we hardly noticed it was gloaming.

Am patching up my rubber boots in approved war-time style, and hope to wade down town again soon.
